Re: Schedule for Application Submission for May 2015 Graduates

Dear Deans and Directors:

Attached you will find the application schedule for all in-state May 2015 graduating classes. This schedule was prepared based on numbers obtained from the Annual Reporting process and review of patterns of receipt of certificates of completion. This schedule will ONLY apply to May 2015 graduates. You may continue to send applications individually for any other graduation dates throughout the year; though we have found sending them in batches has maximized the efficiency of our staff and made the window of time between receipt of certifications of completion and authorization to test for completed applications that do not require a personal appearance is between 24 and 48 hours.

It is our hope that by submitting applications early, your student population will schedule their criminal background checks and pay their NCLEX fees prior to graduation. This would also allow us to set personal appearances for any individual who may require one prior to graduation rather than after. The goal is that when we receive their certificate of completion that this will be the only outstanding paperwork requirement to make them eligible for the NCLEX.

It is especially helpful to our staff if you deliver all applications for your May 2015 graduating class in one envelope. The application and a separate check for each student should be paper clipped together in the envelope. If you choose to send your photograph at this time, please tape it securely to the back page of the application. Please insure that students sign the second page of the application and that if they need to submit a statement that it is legible. Students should read the information on our website regarding name changes and submit appropriate documentation if needed along with their application. These small tasks are greatly appreciated and the application process very smooth.

If you have any questions regarding this process, you can feel free to contact me directly. Questions regarding logistics of applications should be directed to our Assistant Board Director, Corrina Witcher, at (317) 234-1992. All correspondence from our staff is sent **via e-mail** and students will receive an email to complete their criminal background check and pay their NCLEX fee once their application has been entered into the system.
